ZIMBABWE EARTHMOVING AND MACHINERY COMPANY

COMPANY PROFILE

2025

ABOUT JOHN DEERE

We innovate on behalf of humanity.

It doesn't matter if you've never driven a tractor, mowed a lawn, or operated a dozer. With our role in helping produce food, fiber, fuel, and infrastructure, we work for every single person on the planet.

Caring for Customers

Supporting those who work the land in their essential role of providing food, fiber, fuel, and infrastructure for all is what we're all about. This means we empower them to sustain their land, lives, and livelihoods in powerful ways.

Technology & Innovation

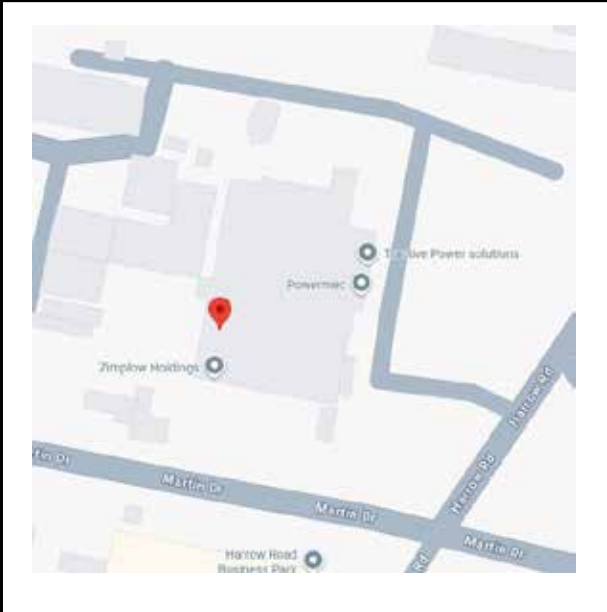

With more people, we'll need more of everything - food, fiber, fuel, and infrastructure. It will take breakthrough innovations and our pioneering spirit to meet tomorrow's challenges while being mindful of our limited resources.

ABOUT ZEMCO

What happens when a company's ground-breaking innovation literally breaks ground? You reshape the planet and history. Dig deeper into the iconic company behind the legendary equipment and learn what fuels us as we run for all.

As the official distributor of John Deere in Zimbabwe, ZEMCO partners with farmers to provide the equipment they need to succeed.

10 Harrow Road, Msasa,
Harare, Zimbabwe

ZEMCO

ZIMBABWE EARTHMOVING AND MACHINERY COMPANY

VISION

To be Zimbabwe's leading partner in modern agriculture, empowering farmers with innovative John Deere solutions that drive productivity, sustainability, and growth for generations to come.

MISSION

To provide Zimbabwean farmers with reliable access to world-class John Deere machinery and support services, delivering innovative solutions, exceptional customer service, and sustainable practices that enhance productivity and strengthen the agricultural community.

VALUES

We are committed to integrity, excellence, and innovation in everything we do. We value our relationships with farmers, partners, and communities, providing dependable machinery, expert support, and sustainable solutions that empower agriculture and drive growth across Zimbabwe.

JOHN DEERE

TURF & AGRICULTURE

5 Series Utility Tractors

5D Series Tractors

5D Series tractors are available from 39 to 50 hp with an additional torque reserve up to 17%. An excellent run around tractor with heavy duty haulage capabilities.

5E Series Tractor

From working livestock to spraying, for hay producers, municipalities, and grain farmers these tractors bring the horsepower and versatility so you can haul, mow, bale and maintain your crops.

5EN Series Tractor

The 5EN is back in action with improved operator comfort features and key product updates. Depending on what jobs you are needing to perform, you can equip your tractor with an open station or cab to fit your specific needs.

TURF & AGRICULTURE

6 & 7 Series Utility Tractors

6 Series Tractors

95hp. Throttle up a 6 Series to meet any need, from baling hay to snow removal, and from commercial mowing to municipal applications. With 20 percent more interior space and a host of other new features, row-crop and hay producers won't find a more versatile tractor.

7J Series Tractors

7200J , 7215J , 7230J

7R Series Tractors

210 to 230 engine hp. The 7R Series Tractors have high power density because of their low overall machine weight and high horsepower rating. Couple that with the Tier 2 engine and the efficiency features found on IVT and e23™ transmissions, and these tractors are an excellent choice in transport applications such as silage or manure hauling because they provide fast acceleration and low total fluid economy.

Loaders

M Series Loaders

The M Series loaders from John Deere are indeed a versatile and cost-effective solution for a wide range of standard applications. These loaders are designed to be lightweight yet powerful, with fast cycle times that increase productivity on the job site. The mechanical self-levelling (MSL) feature of the M Series loader helps ensure a consistent and level bucket position, enhancing operational efficiency.

H Series Loaders

John Deere H Series Loader, your go-to buddy for all things livestock and dairy farming. Designed just for the John Deere 6140B and 6150B tractors, this tough loader makes handling different tasks a breeze. With its quick bucket cycles, you'll get through your daily chores faster. Whether you're loading up feed or moving heavy bales, the H Series is super reliable and gets the job done, making your farm life easier and more productive.

TURF & AGRICULTURE

Lawn Tractors

100 Series Lawn Tractors

With the 100 Series, a consistent, quality cut can be measured down to 6mm, while toughness can be gauged through a cast iron front axle (to negotiate ruts and roots) and a 12-gauge steel frame that stands up to time.

X350

The tractor is powered by a John Deere iTorque™ power system, a combination of engine features and an exclusive hood design that provides superior lugging ability, even cooling, and durability.

Z300 Series & Z500 Series

The way to mow better faster is here. See the John Deere Residential ZTrak zero-turn mowers here, a full line offering “right-size” engines and mower decks to get the job done for properties large and small. Featuring Edge, Accel Deep and High-capacity mower decks so you can mow faster, better.

PARTS & SERVICES

GENUINE FOR A REASON

PROTECT YOUR EQUIPMENT WITH GENUINE PARTS THAT ARE DESIGNED AND ENGINEERED TO PERFORM LIKE NO OTHER. OUR PARTS WILL MAINTAIN YOUR MACHINE'S PERFORMANCE AND ARE BACKED UP BY OUR NAME.

FILTERS

Filters are the heart of efficient performance. Because they have been designed specifically to work with your tractor, we strongly recommend that you only ever use genuine John Deere filters. Oil, fuel and air filters prevent harmful particles from entering the engine while also reducing fuel consumption. Dirty filters can increase fuel use by up to 5% per filter, so it makes sense to ensure you change your filters as soon as they come to the end of their effective life.

LUBRICANTS, COOLANTS & GREASES

Every lubricant we offer is developed by expert John Deere engineers and ideally optimized to meet heavy-duty requirements. Our products not only upgrade your tractor performance, they also protect it from wear and prolong the life of your investment. It also helps to reduce maintenance costs by extending service and drain intervals.
